

CASE STUDY

NGO ERP SYSTEM

Full-stack ERP for Rupasri Mahila Vikas Sanstha with trilingual (Hindi, English, Marathi) support.

Category: fullstack

Tech: Next.js 15, Prisma, Supabase, Better Auth, PostgreSQL, Tailwind CSS

PROBLEM & ARCHITECTURAL SOLUTION

1. PROBLEM OVERVIEW

Rupasri Mahila Vikas Sanstha needed a modern system to manage members, transactions, and reporting usable by staff who work in Hindi, English, and Marathi.

2. ARCHITECTURAL SOLUTION

Built a Next.js 15 full-stack app with a Supabase/PostgreSQL data layer via Prisma, Better Auth for role-based access, and a fully trilingual UI.

* Languages: EN / HI / MR

* Data Layer: Prisma + Supabase

* Auth: Better Auth
